

# Aerial Acrobatics

## Technical Requirements

Duration                      Act                      5 to 15 Minutes

Space                      Space                      3m x 3m  
Requirements              Height                      4m (Aerial Silk, Aerial Rope)  
(at least)                      3m (Aerial Hoop, Lollypop)

Aerial acrobatics requires an accessible suspension point (wooden beam, hook, iron beam or similar, bearing load min. 500kg) or an option to install our aerial acrobatics scaffolding on one spot for several shows.

Light                      Basic light.  
In the absence of a lighting concept, we can provide basic lighting.

Sound                      PA system.  
In the absence of a PA system on site, we can gladly bring our own.

Remarks                      A dressing room is welcome, but not required.
